

Fielders exceeded expectations - solutions to meet challenges

Case Study: Home HQ - Gepps Cross

Products | KingKlip 0.48 Z/A 65000m² | Shadowline 0.7 Portico Grey 3000m²

Home HQ - Gepps Cross

Concealed fix long length roofing of up to 70m in length provided the security that modern large scale Retail Outlets demand. Fielders met that requirement for the latest Homemaker Centre north of Adelaide with their KingKlip® profile. Hi-tech solutions were also required to meet the burgeoning stringent statutory obligations designed to protect our public buildings. Fielders met the BCA stipulations for the insulation of large commercial developments, with a unique bespoke spacer clip, another Fielders' first. Shadowline, part of the distinctive Fielders' "Finesse" range, provided the fascia backdrop for some of the nation's iconic brand names populating this new vibrant commercial centre.
