**FINISH ON TOP WITH FIELDERS**

**A**t Fielders, we do not sit on the fence when it comes to the range, reliability, flexibility, strength and appearance of our Dominator fencing products. With any one of Fielders' fences, it is up to you whether you choose to sit on it or not!

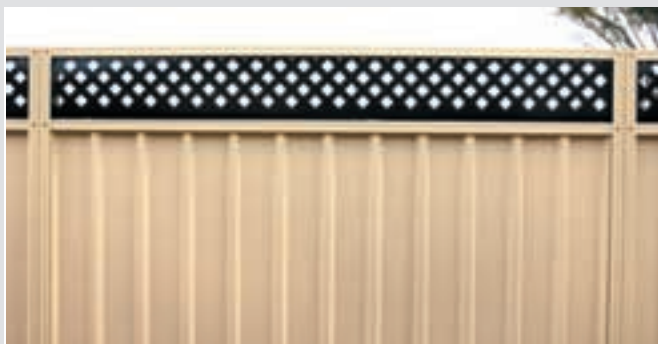

When choosing your fence, many factors need to be considered: design, appearance, ease of installation, cost, and most importantly privacy for you and your neighbours.

## Dominator Panel Fencing

Fielders Dominator Panel Fencing offers a stylish appearance which blends beautifully with any environment. Ideal for level or sloping sites, it allows you and your neighbours to enjoy comfort and privacy without obtrusive posts and rails. TL-5/M-Clad sheets slot into strong roll-formed steel channels that ultimately provide a neat frame for the sheets. With the use of natural low gloss colour, the fence looks equally attractive from both sides.

## Dominator Panel Fencing with lattice

Fielders Dominator Panel Fencing with lattice still provides the privacy, security and appearance of Panel Fencing, whilst also providing a more distinguished, unique and attractive fence, which will add value to any home.

*Panel Fencing with Lattice.*

With Fielders extensive range of fencing, you can choose from many attractive designs, from the ever popular neighbour friendly Dominator Panel Fence to the trendy Mini-Flute fencing with rolled capping. Fielders fencing can be easily erected yourself, ensuring privacy with cost savings in mind. All our fencing is manufactured from long life pre-painted Colorbond® or Zinalume® steel. Fielders have all boundaries covered.

## Dominator Mini-flute Fencing

Trendy mini-flute fencing is available in all Colorbond® colours with the stylish rolled capping to finish it off. Colours can be mixed and matched, to create a unique appearance for your fence.

Fielders also manufacture both single and double access gates to blend with the colour and style of your fence. Standard sizes are available, or they can be custom made to suit your requirements. All gates are supplied with hinges and latches. For extra security and added peace of mind, a single or dual Lekk-Latch is available.

# Dominator Post and Rail Fencing

A cost effective, conventional favourite for many years, post and rail fencing is suitable for both level and sloping sites. With the strength of sturdy metal posts fixed to sheeting, Dominator Post and Rail fencing is ideal for high wind areas. A number of different sheeting profiles are available, the more popular profiles being Corrugated and TL-5/M-Clad, both available in pre-painted Colorbond® or Zinalume®.

A traditional square capping complements this style of fencing, or Fielders rolled capping is a stylish alternative. Another option for a smart finish is powdercoated posts and rails to complement the fence sheets.

# Dominator Tubular/Pool Fencing

The Dominator Tubular Fencing System with its straightforward and clean tubular steel finish is ideal for fencing your pool safely. It provides a strong and secure boundary, whilst allowing a smaller area to be fenced with a more open feel. The patented and pool regulation compliant system is supplied in four popular colours, and two heights, in a pre-packaged do-it-yourself kit, with everything you need in the one pack. Matching gates are also available, all supplied with a child proof Magna Latch.

Being the most competitive pool fence on the market, you can't afford not to fence your pool with the Dominator Tubular Fence.
